

Safety information – September 2021

- **Risk assessment**

Betty Lerner is working on the 2021 risk assessment for Biological Sciences. To conduct a short remote lab survey by the end of October, faculty member will receive **a link for a doodle poll to set up a Zoom meeting with Betty.**

Three main points will be reviewed: **working alone policy, new personnel safety training and safe work procedures.**

- **Safety Training**

The Safety group is going to work with Betty Lerner to simplify the safety training process. Information/forms will be posted on the departmental website. The COVID-19 page is going to be replaced by a Safety information page. The Safe work procedure during COVID-19 will be posted on this page.

Checklist for new personnel can be personalized for your own lab. Contact Betty Lerner to modify it.

Lab keys are provided when the safety training has been completed

TO REGISTER for the Faculty of Science General Safety & WHMIS Orientation: copy this link to your browser <http://www.sci.umanitoba.ca/whmis-orientation/>

- **EHS Office**
