

Biological Sciences Safety Training: quiz(zes) and a checklist must be completed before conducting any research activities or entering any labs

2. Field safety (for personnel/ PIs conducting field research)

a. Risk Assessment (checklist for Supervisors)

Each field season, PIs are required to complete the risk assessment (field checklist) with the lab personnel involved in the field research.

Contact Betty at scisafe@umanitoba.ca to get the appropriate checklist. Provide the date and list of participants.

b. Participant's Emergency Information (form)

Each field trip participants are expected to complete an emergency information form.

To request the form contact Betty Lerner at scisafe@umanitoba.ca
