

Honey Bird Feeder

- **All you need is GELATIN, BIRD SEEDS and COOKIE CUTTERS**
 1. Combine 1 cup of honey and $\frac{1}{4}$ cup of boiling water and then mix until honey is dissolved.
 2. Add $\frac{3}{4}$ cup (quantity may vary) of bird seed, mix everything together (it won't solidify right away).
 3. Take a scoop of your mixture and fill the cookie cutters with it, spreading the mixture and making thin layers. Make sure you filled the molds tightly.
 4. Leave the molds for a few hours to solidify or put them in the fridge.
 5. In the end, once it's solidified, you can punch through a needle with string and \hang a feeder on the tree.

Few Random Ideas for household objects.
