<u>Student Non-Academic Misconduct and Concerning Behaviour Procedure</u>		

Notes:

i) Disciplinary actions are adapted from [Table 3: Disciplinary Actions and Disciplinary Authorities](#)

ii) F-DISC stands for F in the course with disciplinary action imposed due to academic misconduct.

iii) Penalties for Non-Science students found guilty of academic misconduct in Faculty of Science courses will be decided after consultation with their Registration Faculty (e.g. penalties for an Engineering student taking a Mathematics course will be selected by the Department of Mathematics or the Associate Dean of Science, with an opportunity for the Dean of Engineering to attend the hearing and recommend further penalties).

iv) An educational component to the disciplinary action will be implemented to avoid future acts of academic misconduct. Therefore, penalties may also be accompanied with other requirements to be met before permission will be given to the student to continue in the program. For example, an acceptable letter of apology, a properly written essay on a disciplinary or other topic, or attendance at specified workshops may be required before a suspension or penalty is lifted.
